INTRODUCTION

The New Jersey Municipal Data Book has been produced to fill a gap in the publication of information about New Jersey. Although each year there are many different publications issued from a variety of sources, there has been no one single volume that researchers, business people and librarians can turn to for a basic overview of each of the 567 municipalities in the state.

To correct this situation, New Jersey Associates has compiled a list of the most frequently requested bits of information about cities and towns, and has collected and published the data on individual pages, one for each municipality. This information comes from many sources, including our own survey, and is detailed below.

The decision as to what to include is difficult, but we are guided by our readers needs and their comments and suggestions to us. Over the years we have added additional demographic information which has become available, and additional municipal and school officials, along with the entire County Section. Of course, there is always room for further refinement and we continue to welcome and solicit ideas from our readership.

INTRODUCTION TO THE DATA

The information in this volume has been obtained from a variety of sources. In order to maximize the usefulness of the volume it is important to disclose where each piece of information came from. This is especially important to researchers who have questions about how the data was gathered and what some of the terms used mean. The best answers to these questions are found with the originators of the data, listed in the bibliography, and interested readers are directed there.

It is also important to cite the year of the data. In all cases this is the latest year for which complete data was available for all local governing bodies as of February 15, 1986. Most data is from 1985, 1984 or 1983, and most of the dates are indicated in the headings themselves. Where no date is shown for a given category, one is provided below.

Some readers have said that the information provided seems old. Unfortunately most information about a given year is not available until well into the following year and sometimes not until the year after that. However, we will continue to provide the latest information available, supplementing published reports with our own surveys whenever possible.

EXPLANATION OF THE ARRANGEMENT

Following the introductory matter, the main portion of the book is divided into two groupings. The Municipal Section (white) and the County Section (blue). The Municipal Section contains the Municipal Pages, one each for every municipality. The County Section begins with a listing of the constituent municipalities in each county and follows with a County Summary Page for each of New Jersey's 21 counties. In both sections, pages are arranged alphabetically, letter by letter, word by word, following the alphabetization of the Division of Local Government Services, Department of Community Affairs.

EXPLANATION OF THE CATEGORIES - MUNICIPAL PAGES

Demographic

Population figures for 1970 and 1980 were obtained from *Advance Reports - 1980 Census of Population and Housing*. The 1984 Population figures were obtained from the New Jersey Department of Labor, Office of Demographic and Economic Analysis. It should be noted that under 'Race' there are six categories listed. The first five are racial groups as defined by the Bureau of the Census, and their sum should match the total. A line appears under the fifth category, 'Other'. The sixth category, 'Hispanic' is not a racial group, but includes those people who identified themselves to the Bureau as being of Spanish origin. A complete discussion of this matter appears in the introduction to the *Advance Reports*.

Figures for 'Per Capita Money Income' were obtained from, *New Jersey Personal Income, 1969-1980*.

Data for 'Age', 'Sex' and '% High School Graduates' comes from the 1980 Census as made available by the New Jersey Department of Labor.

Municipal Services

The name of the Police Chief was obtained by our own annual telephone survey of municipalities. Police statistics were taken from the *Uniform Crime Reports*, and are for the year 1984. The crime rate and violent crime rate are stated per 1,000 of population and were not computed for places with less than 100 residents.

Fire department information was obtained from our 1981 survey. The name of the chief is provided when we receive one and is updated annually by telephone. In cases where there is more than one district in a municipality (and more than one chief) the number of districts was inserted in this space. Under firefighters, the number of individuals, both paid (indicated by a 'p') and volunteer (indicated by a 'v') are listed.

Water and sewer information also results from our 1981 survey. Municipalities were asked if residential properties under their jurisdiction were served by piped in (municipal, regional authority, etc.) water, and if so to what extent. The answers varied from yes, all homes, to some homes, most homes, a percentage of homes, etc. Whatever the municipal response was has been stated here. The same question was asked in regard to the availability of sanitary sewer service to all residential properties, and again the municipal responses have been restated as received.

The name of the library director was obtained by our own survey. The '# Bks' blanks was filled by reference to *New Jersey Public Library Statistics, 1984*. It should also be noted that only locally maintained libraries are included, branches of county libraries are not included.

Real Property

'Total Housing Units' was obtained from the *Advance Reports*. 'Real Property Valuation', 1984, was obtained from the *47th Annual Report of the Division of Local Government Services, 1984*.

Building permit data was obtained from the three editions of *New Jersey Residential Building Permits* listed in the bibliography.

Debt

All information in this category was taken from the *47th Annual Report of the Division of Local Government Services, 1984*.

Description

'Size' was obtained from the *47th Annual Report of the Division of Local Government Services, 1984.*

'Density' was computed by the editors, using figures listed on the page, and is reported in persons per square mile.

'Type' was obtained from *Manual of the Legislature of New Jersey, 1985.*

'Address' was obtained from the *New Jersey State League of Municipalities 1982 Municipal Directory.*

Government

'Form' was obtained from *Manual of the Legislature of New Jersey 1985.* Abbreviations are explained under the Abbreviations section below.

The names of all government officials were obtained from our own telephone survey conducted in February of 1986.

Taxes

All information provided under this heading was obtained from the three annual reports of the Division of Taxation listed in the bibliography.

It should be noted that the County Ratio is determined by the county for the apportionment of county taxes, while the State Ratio is determined by the state for state school aid. The State Ratio is promulgated in the year under which it appears, however it is used for the following year, while the County Ratio is used in the year under which it is listed. This may help explain why the State Ratio for one year is sometimes very similar to the County Ratio of the next.

Financial

All information under this heading was obtained from the three annual reports of the Division of Local Government Services cited below.

Under both 'Total Revenues' and 'Total Expenditures' sub-categories are listed. These categories are not meant to be inclusive, but only to isolate special areas of revenue and expense which may be of interest to readers. As a result the sub-categories will usually not add up to the total.

School System

Only information about locally maintained schools (or joint or regional schools with no more than two constituent municipalities) are listed in this section. If a governing body does not maintain a school system, the system to which it sends its children is listed. If only an elementary school system is maintained, this is the information provided. Information about regional school systems has not been included.

The directory listings have been obtained from the *New Jersey Education School Directory, 1985-1986.* The telephone number given is for the Superintendent, Chief School Administrator, or Administrative Principal is there is one. If not, the number is for the Secretary of the Board of Education. It should be mentioned that the Secretary of the Board is frequently the school business administrator for the district.

All other information is taken from the annual reports of the Commissioner of Education listed in the bibliography.

EXPLANATION OF THE CATEGORIES - COUNTY SUMMARY PAGES

All the information on the County Summary Pages is derived from the same source as for those on the Municipal pages with the following exceptions, notes and additions:

Description

'Size' is reported as a whole and is also broken down into land and water area. 'Size' along with the number of constituent municipalities and the address ofthe country (county seat) have been taken from the *Manual of the Legislature of New Jersey, 1982*.

Government

The form of government along with number of freeholders has been taken from the most recent annual report of the Division of Local Government Services. All the names listed in the section come from our own telephone survey taken in February, 1986.

School System

The County Superintendent (a state rather than county official) was obtained from the *New Jersey Education Dictionary, 1985-1986*. All statistics in this section are totals of districts in the county. The one exception is the cost per pupil which is an average computed by the State Department of Education.

A WORD ABOUT BLANKS

On some pages there may be some spaces left blank or in which dashes (--) have been inserted. When this has been done it indicates one or more of the following:

1. The municipality neither has nor provides this service.
2. There is no person in this office, or this office does not exist.
3. There are none of these.
4. There are none issued or provided.
5. The answer, equation, rating or ratio is zero.
6. No funds were expended in this category.
7. The local governing body failed to provide this information to the data collection agency.

DISCLAIMER

The *New Jersey Municipal Data Book* contains tens of thousands of pieces of information. Every reasonable precaution, along with a good deal of care was taken in its preparation. Despite all efforts it is possible that some of the information contained in this book may not be accurate. Some errors may be due to errors in the original source materials, others may have been made by the compilers of this volume. An incorrect spelling may occur, a figure may be inverted and similar mistakes may exist. The compilers, editors, typists, printers, and others are all human, and in a work of this magnitude the possibility of error can never be fully eliminated.

If any piece of information is believed to be inaccurate, please contact the publisher. We are eager to eliminate any errors from coming editions and we will be pleased to check a piece of information.

The publisher is also aware that some users may apply the data in this book in various remunerative projects. Although we have taken all reasonable, responsible measures to insure total accuracy, we cannot take responsibility for liability or losses suffered by users of the data. The information provided here is believed to be correct at the time of publication. No other guarantees are made or implied. The publisher assumes no liability for losses incurred by users, and warrants only that diligence and due care were used in the production of this volume.

The New Jersey Economic Almanac

The New Jersey Economic Almanac is the most comprehensive statistical reference available for the economy of New Jersey. Over 200 separate tables fill this 400 page book with the essential, practical information that business people and professionals need to know. The almanac begins with an economic profile and two in-depth chapters on population and labor force. This is followed by individual chapters on every major area of economic activity, including:

Agriculture
Banking, Finance, & Insurance
Communication
Construction
Education
Energy
Fishing
Forestry
Government
Manufacturing
Mining
Real Estate
Recreation
Service Industries
Taxation
Transportation
Wholesale & Retail Trade

The information contained has been painstakingly abstracted from dozens of the latest state and federal documents; trade, industry and professional association publications; and other sources as well.

Nowhere else is the economy of New Jersey treated so broadly, yet in so much detail.

A timely, cost effective resource now in its fourth edition.

ISBN 0-911273-08-5 paper 354 p. $35.00 plus New Jersey tax
